## Growth

... is a mystery. It happens all the time, yet often goes unnoticed. Sometime back, my 8-year-old daughter remarked as we were walking across a basketball court, "Daddy, the net seems to be lower now!" I smiled, knowing that she had grown taller. Sometimes we don't even realize we have grown. What used to seem unattainable suddenly comes within reach. That's the mystery of growth.

✂ During last Christmas, we had the opportunity to participate in Heavenly Harmony's outreach as a family. While the kids and I were involved upfront, Bee Bee helped out in taking care of the children and their costumes. The kids were a little apprehensive at first, but ended up looking forward to more. In the next season of concerts, Jed will be

singing a duet with me, entitled "你的手永远比我大。"

### Prayer Requests:

✂ When Bee Bee took up a Master's program in Counseling 2 years ago, the idea of equipping others in counseling seemed far fetched. However the opportunity came in January when she was asked to conduct a basic training for the new staff of Campus Crusade.

As she trusted the Lord in this new venture, she discovered that it was not

as formidable as she thought, and that God's grace was sufficient for her.

✂ I will be going to Mongolia (May 15—28) to teach New Testament Survey to the Campus Crusade staff. I look forward to meeting some of the people I knew during my mission trip 5 years ago.

✂ Thank you for growing together with us through the years. May we continue to uphold one another as we walk in the Lord.
